ABOUT AFFINITY HEALTH SERVICES

Affinity Health Services was formed in 1996 for the purpose of providing comprehensive management services for senior living providers. In 2000, we expanded the scope of our service delivery to also provide consultation and advisory services to nursing facilities, personal care homes, and continuing care retirement communities.

Today, we provide a continuum of services that includes both comprehensive management and consulting and advisory services to senior living communities with various organizational structures and governing philosophies. Our experience spans all sectors of business including for-profit, not-for-profit, faith-based, hospital-based, county-operated and state-operated communities. We take great pride in the success of our contracted managed communities and consulting clients.
